

Vaccinations

People have vaccinations to help keep them safe.

Vaccinations can stop people being poorly with diseases, flu and

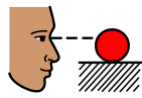

covid.

A vaccination might be sniffed or an injected in the arm.

If I have an injection:

I can look away or look at the person helping me.

something

I can think or talk about something I like.

10 +

I can count to 10 and it will be finished. Vaccinations are quick.

It will help keep me healthy.
